

## **DIGGING PERMITS**

**The Treasurer's Department issues digging permits for any public repairs, maintenance, or new construction that will require digging.**

**The fee is \$2.00.**

An agreement form must be completed when purchasing the permit.

If the job requires digging in an improved street or alley, a deposit will be required. Sales tax will be added to all deposits. Deposits are refundable upon final inspection and approval of the site.

If the site is not approved for refund, the money will be forfeited as payment for the City's costs to repair the site.
